

# SLEEP WALKING ANIMALS

## TECHNICAL RIDER

## GENERAL INFORMATION

---

**Genre:** Indie Folk

**Based:** Manchester & London

**Formed:** 2019

**Label:** Black Sea Music

---

**Description:** Born in Manchester UK, Indie Folk outfit Sleep Walking Animals are Tom Glynn-Carney (vocals), Joe Etherington (guitar, vocals), Jack Brett (bass, vocals), Alex Harford (guitar), Nuwan Hugh Perera (keys, vocals) and Bill Caple (drums). Self-confessed reprobates with choir boy pipes, SWA grew up as friends for years before they formed the band and are incidentally bonded by a deep sense of brotherhood, which penetrates through their music, recording ethic, and live shows.

They have been likened to Fleet Foxes and Talking Heads, in a defining melee of evocative folk and post-punk. They pride themselves on choral harmony, with simple yet filmic musicality and poetic lyricism. SWA has sold out venues across the UK and has aired on national TV and radio, most notably on Channel 4's Sunday Brunch and Tom Robinson's Introducing Mixtape.

---
